## Welcome Words - James Rockall, CEO & Managing Director, WLPGA

The LPG industry continues to be characterised by three enduring and strengthening trends – strong production, matched by solid demand and sustained lower international prices. It is in this context that we convene the leaders of our sector from over 60 different countries to debate, discuss and do business at the 30th World LPG Forum under the theme of “**Fuelling New Markets**”.

With an anticipated participation of between 2,000 and 3,000 people, the World LPG Forum is the event that you cannot afford to miss. Whatever your interest in the LPG sector, **unrivalled intelligence** and **unique networking opportunities** will add considerable value to your business.

Registration rates for the World LPG Forum are affordable and discounts are available for multiple participants. But don't look at this as a cost but as an investment - an investment in your teams, your organisation and your future!

I look forward to meeting you in Marrakech this year.
